The Exchequer openeth 8. dayes before any Terme begins, except Trinity Terme, before which it openeth onely 4. dayes.

For the hearing, and determining of all Contracts, discords, and such like matter in the Cõmon wealth, these 4. times, commonly called the *Termes*, be appointed, in which the learned Iudges set an end of contention, and debate betweene party and party.

Euery of these 4. Termes, consists of 4, 5, or 8. *Returnes*, euery Returne of 4 dayes, & euery day seruing vnto a seuerall purpose.

Note then, that euery Terme hath part, or all these 6. kind of Returnes, *viz*. *Crastino Octabis*, *Quindeno*, *Tres*, *Mense*, & *Quinq*; *Crastino*, is the morrow after the *Basis*, or day nominated; a *Crastino Trinitatis*, is the morrow after *Trinity* Sunday, it being the *Basis*, and day that giues the denomination. *Octabis* is 8. dayes after inclusiuely. *Quindeno* is 15. after. *Tres* that day 3 weekes. *Mense*, that day Moneth, and *Quinq*; that day 5. weekes.

Now euery of these Returnes, hath 4. seuerall dayes, whereon they consist: the first whereof hath a double signification, the one is the day of *Returne*, and the other the day of *Essoyne* for the Defendant, in a personall action, or the Tenant in a reall action, to be Essoyned. The second, is the day of *Exception*, for the Plaintiffe, or demandant to lay an Exception, if no Essoyne be cast, that the Defendant shall not bee essoyned, or amerced The 3. is, *Returna Brevium*, that is, the day whereon the Sheriffe must returne the Writ; The 4th, is the day of Appearance for Parties, and Iurors in the Court of *Common Pleas*.

If any of these dayes fall vpon an Holiday, that is no Court day, as in *Hilary* Terme, vpon the day of the *Purification*: In *Easter* Terme, vpon *Ascension* day: In *Trinity* Terme, vpon the Natiuity of St. *John Baptist*: And in *Michaelmasse* Terme vpon the day of *All Saints*, or vpon any Sunday (all which, be no Court dayes) then must the next day following serue for both: As if the Essoyne day fall vpon a Sunday, then Munday must serue for the Essoyne day, and the day of Exception both.

These dayes, haue all most vse in the Court of *Cõmon Pleas*.

But Latitates, or other Processe vpon a Bill certaine, it is vpon a day certaine: As *Die Lunæ proximo post Purif*: which must alwayes be reckoned from the Essoyne day.

In

In the Starre-Chamber, Chancerie, Court of Wards, and Court of Requeſts, they vſe none of theſe Returnes, but onely the day of Appearance, which is *Quarto die poſt*,

Yet note well, that if a *Capias*, *Exigent*, *Scire facias*, or a *Diſtringas* be executed after the day of Eſſoyne, by the Sheriffe or a Commiſſion ſate vpon out of any of the aforeſaid Courts, after the ſayd Eſſoyne day, it is neither juſtifiable, nor warrantable.

The Law-dayes in the Courts of the *Arches*, *Audience*, *Prerogatiue*, *Conſiſtory* in *Pauls*, *Delegates*, *Admirall* Court, and *High Commiſſion*, as they be vſually kept in the Terme time.

The first day after euery of the Feasts set downe for euery Terme, the Court of the Arches is kept in the forenoone in Bow-Church: And the Admirall Court the same day in Southwarke, in the afternoone.

The second day after euery of the said Feasts, the Audience Court is kept, in the forenoone in the Consistory in Paules, and the Prerogative Court in the same place, in the afternoone. The 3. day following euery of the said Feasts, the Bishop of London, his Consistory Court is holden in Pauls in the forenoone, & his Maiesties Court of Delegates, in the same place in the afternoone. The 4. day following the said Feasts, his Maiesties Court of High Commission, is kept in the Consistory in Paules, or (as of late yeares) at Lambeth, or in the Lord Bishop of London his palace, on Thursday afternoone. But if any of the dayes before recyted be Sunday, or an Holy-day, then is such Court kept the day following.

In Hilary Terme, 4. of the aboue named Court dayes, be ordinarily kept, and as many in Easter and Trinity Termes: according to the course of the yeare, as the Iudge in the Arches in his discretion shall thinke good, who at the end of euery Terme appointeth the Court dayes to be kept in the next Terme, but in Michaelmas Terme, the Court dayes (if they be not altered) were wont certainly to be kept.

I therefore aduise all Country men (especially those that dwell farre off) being cyted by any originall Processe to appeare in the Arches, Audience, Prerogatiue, or Delegates, to send to some Proctor, a note of the cause, and to what Court they be cyted, to appeare for them, and to returne them word of the very Day in which it shall be needfull for them to appeare in person.

But in the course of practice in the High Commission, and the Admirall Court, it is otherwise, for euery person cyted to those Courts, must appeare personally.

Generall Obseruations, and profitable to be regarded.

REmoue, and set young Trees, from October vntill February, setting alwaies that side towards the Sun, which was before, the winde Southerly, or at West, the weather warme, dry, and in the new of the Moone.

Graft, and plant trees, the Moone being new, in Taurus, Virgo, or Capricorn, in faire, dry weather, wind S. or West.

Cut Vines in December, or January.

Fell Timber, to continue, and be without worme, in December, or January, 2, or 3, dayes before the Moone change. If you will haue it to grow again, in the new Moone is best.

Cut Hedges, betweene the change and full Moone, from the end of January vntill May.

Shears Sheepe, cut haires, and sow all manner of Corne in the new of the Moone.

Set and sow all kind of Seeds, the Moone in Aries, Taurus, Cancer, Virgo, Libra, Capricornus, Aquarius, or Pisces: but for Seeds whose rootes be round, should be sowen, or set 3, or 4, dayes before the full Moone or after.

Dung land that weeds may not abound, in the last quarter.

Geld, or lib Cattell, the Moon in Aries, Libra, or Sagitarius, after full Moone: but you may let them blood at any time, the Signe not being in the heart, nor in the place where the incision is made, nor in the day of the Moones change.

Gather Flowers, or Seeds, such as you mind to keepe all the yeare at the full Moone. Dry your flowers in the shade till they be almost dry, and then Sun them a little, least they mould, or corrupt. Do the like with your Seeds, but they will indure the beames of the Sun.

Gather Apples, and Wardens, in the last quarter of the Moone; lay euery sort by it selfe (without any tailings among them) vpon bare boards, or on a Plaister flooze, vntill the end of November, the thinner they lye the better, let the place be close shut in frosty weather, & extreame cold; then to couer them ouer with fine Hay, or Barly chaffe, will not be amisse: but Wardens so gathered, and laid on dry boards, need no couering.

Profitable

Profitable Rules for Gardening.

1 IN the Southerne parts, neare the Sea, Gardening may be more timely done, than Northward, and in the midſt of this Land, where the ayre is not ſo warme, and fauourable

2 In ſetting hearbes, leaue no top more than an handfull aboue the ground, nor more then a foot deepe in the earth.

3 Twine the roots of thoſe ſlips you ſet if they will abide it, but Gilliflowers are too tender.

4 Set moyſt, and ſow dry.

5 Set ſlips at any time, except about Midſommer, or in froſts.

6 Seeding ſpoyles the moſt Rootes, by drawing the heart, and ſap from them.

7 Gather for the Pot, and medicines, hearbes tender and greene, the ſap being in the top, but in Winter the root is beſt.

8 All hearbes once in ſeauen yeares would be renewed, except Roſemary.

9 Theſe require whole plots. Artichockes, Cabbages, Turneps, Parſeneps, Onions, Carrets, Safron, and Skerrits.

10 Gather all your ſeeds, dead, ripe, and dry.

11. Lay no dung to the rootes of your hearbes, for dung not rotted, is too hot, euen for trees alſo.

12 Thin ſetting and ſowing (ſo that the rootes ſtand not aboue a foot diſtance) is profitable; for the hearbes will like the better, and greater hearbes require more diſtance.

13 Set, and ſow hearbes in their time of growth (except about Midſommer, for then they are too tender) but trees in their time of reſt.

14 A good Huſwife may, and will gather ſtore of hearbes for the pot about Lammas, and dry, and pound them which in Winter will doe her good ſeruice.

15 Weed your Garden with weeding knives of ſingers, after a ſhowre of raine, and let the Weeders learne to know hearbs and Trees, from Weeds.

Generall Rules of Physicke.

CVt no Veyne nor let Blood, when the Signe is in the place where the incision is to be made, neither when the Sun or Moone are afflicted with the maligniant Planets, Saturne, or Mars: let it be done in the morning, after the Sun-rising, & while the patient is fasting: If in the afternoone, then after perfect digestion, the ayre being temperate.

In letting of Blood, the Physition, or Chirurgion must be carefull of his patient, for many times the carlesse and vnlearned, by letting off Blood, open a way to dangerous infirmities, & sometimes to present death. It is not conuenient, that a leane or weake man, or woman, or one that is verie fat, or grosse, nor for a Child to be let blood. It is to be considered, how it standeth with the Patient inwardly for his Complexion, and Age, for the time of the yeare, and of the day. Therefore it is best to let blood in faire, temperate, and Sun-shine, weather, not to sleepe presently after it, nor to stirre violently.

The best times to let Blood be, for the Sanguine the Moone being in Cancer, or Pisces. For the Melancholicke, in Libra, or Aquarius; and for the Phlegmaticke, in Aries, or Aquarius

For

For the Phrenſie, and Peſtilence, Squinanſie, Pluriſie, Apoplexie, continuall Head-ach, hot burning Feauer, or any other extreame paine, or dangerous diſeaſe, remedy muſt be ſought with all conuenient ſpæd, but then Blood is not to be let in ſo great quantity, as if a choſen time might be taken.

It is beſt to Bathe, the Moone in Aries, Leo; or Sagitarius for health, but for cleanlineſſe in Libra, and Piſces.

Sweatings as they are of two ſorts, that is Naturall, and Artificiall; ſo they be for two purpoſes. The Naturall ſweat (good hæd being taken in opening the pores) will diſſolue groſſe, and thicke humors, will cleanſe the Blood, will comfort the ſpirits, will driue away Cold, will helpe Numneſſe and the Dropſie. The Artificiall ſweat, will cleanſe Scabs, put away Itch, amend dulneſſe in hearing, eaſe the Stone, diſſolue the congealed and cold Melancholly blood, and humors. But for the better performing, and effectuall working in theſe caſes, the counſell of the learned Phyſition is to be deſired, who will conſider many Aſtrologicall obſeruations neceſſary in Blood-letting.

The beſt times to ſweat in, are the moone being in Aries, Leo, and Sagitarius.

Notes

Notes of Husbandry, with some other things to be considered, in euery Moneth of the yeare.

HUsbandry doth alter according to the Nature of Countreyes, for as the earth, the ayre, the little, or much heat, cold, or moysture doth increase, or diminish: so must good Husbandmen change theyr seasons, labours & instruments. In the fruitfull Vales of this land, where is stiffe clay, and in all other places of the like nature, tillage must begin betime in the yeare, the Plowes, and other implements must be large, and strong, the labour great, and painefull; In mixt soyles fruitfull, arrable worke would be begun at later seasons, the Plowes, other necessaries, and labours are to be somewhat lesse then the other; In light Sandy grounds, that be fruitfull, theyr seasons be latest, theyr furniture, and labour least. Lastly, in barren, and vnfruitfull fields the fit season of the yeare is to be considered, for in all places (Annus fructificat non ager) and the Plowes, and implements must euer be fitted to the nature of the ground.

Ianuary.

NOw cut downe Timber, in the last quarter of the Moon. Coniectures of weather by the Change, Full, and Quarters of the Moone.

WHen the Moone doth either change, be at the full, or enter into her first or last quarter, in Aries, Leo or Sagitarius, in Winter it is commonly fayre, but in Summer hot especially in June and July.

If the change, be at the full, or enter into the first or last quarter, in Taurus, Virgo, or Capricornus, it is like to be cold, but in Summer temperate.

When the said times be, in Gemini, Libra, or Aquarius, then looke for winde, especially in the Spring, or Autumne.

But if the Moone be new, at the full, or come to the first, or last quarter, in Cancer, Scorpio, or Pisces, in Winter iudge of moist, and rainy weather and sometimes Snow, but in Summer, it will be good, and temperate weather, for the most part, yet sometime it raineth, and then especially, when Venus is aspected with the Moone.
